

## Cybersecurity

### **Mike Fuller, Info Security Sr Engineer II**

Cybersecurity: Why it matters now, and what to do about it. Key items every business should know about cyber security and attacks, and actionable steps they can take to protect themselves now.

Mike supports the IT security function for the retirement division of Principal Financial Group. He serves as an IT security engineer, working with the business information security officer. His responsibilities include providing security guidance/direction to our engineering teams. Additionally, Mike is responsible as part of the security team for incident management, client questions, and other security related needs.

Mike has a Bachelor of Business Administration in Computer Information Systems from the University of Texas at El Paso. Mike has over 19 years of experience working in IT, mostly in architecture, leadership, and security roles. He holds CISSP and CISM information security certifications. Mike is a member several industry relevant organizations including FS-ISAC, SPARK, SecDSM and DAMA.
